

THE CITY OF GRESHAM OREGON

The City of Gresham Building Division will be hosting a booth at the Gresham Farmers Market, Saturday, August 29, from 8 am to 2 pm. This is a great opportunity for home owners to ask questions and gain information regarding home improvements and building repair projects.

In an effort to better illustrate and explain how to perform the repair or home improvement project, the Building Division staff is in the progress of building a portable model home to use at public outreach events. Currently the model consists of the foundation which has examples of mechanical, plumbing and electrical post and beam installations and the first floor framing.

Staff has taken the model to the Farmers Market this past May and a Neighborhood Fair in July. The model was well received by visitors at both events. When completed the model home will be two stories and a roof system. When not in use at a public outreach event the model will be on display in the Permit Services area on the first floor of Gresham City Hall.
